## Summary

Aspiring Machine Learning & Data Science with strong foundations in Python, SQL, and applied ML. Experienced in feature engineering, predictive modeling, explainable AI (SHAP), and data-driven experimentation. Passionate about applying AI to personalized learning, behavioral analysis, and research-oriented problem solving.

## Projects

### CUSTOMER CHURN PREDICTION (PYTHON | XGBOOST | SHAP)

- Designed feature engineering pipelines and trained an XGBoost model to predict behavioral outcomes
- Built churn prediction model and identified **top 10% highest-risk customers** using XGBoost + SHAP
- Explained churn drivers and delivered insights for targeted retention actions
- Estimated **₹1.75L/month revenue protection** by targeting high-risk churn customers

### MOVIE RECOMMENDATION SYSTEM (PYTHON | PANDAS | FEATURE ENGINEERING | SIMILARITY MODELS)

- Performed exploratory data analysis on user-item interaction data to identify behavioral patterns
- Engineered content-based features using genres, ratings, and metadata
- Built a recommendation engine using similarity techniques to provide personalized suggestions
- Demonstrated personalization logic applicable to **adaptive learning and educational recommendation systems**

### PLAYER PERFORMANCE ANALYSIS (SQL)

- Extracted and analyzed football performance data using MySQL joins, aggregations, and window functions
- Generated performance summaries, efficiency metrics, and comparative insights
- Created 30+ SQL analysis queries across 7+ relational tables to support decision-making

## Skills

- **Programming & ML:** Python, Pandas, NumPy, Scikit-learn, XGBoost
- **Machine Learning:** Feature Engineering, Model Training, Model Evaluation, Explainable AI (SHAP)
- **Data Analysis:** Data Cleaning, EDA, Data Transformation
- **Visualization:** Power BI, Matplotlib, Seaborn
- **Soft Skills:** Research Thinking, Communication, Problem Solving, Team Collaboration

## Education

### Bachelor's degree in Computer Science

Mumbai University | 2022 – 2025 | CGPA: 8.38

### Master's degree in Computer Science

Mumbai University | CGPA: Pursuing

## Internship

### Python Full Stack Developer | YSM Info Solution | Feb 2025 – Jun 2025

- Implemented core modules such as login/user management, CRUD operations, and database connectivity.
- Assisted in testing, debugging, and improving features while collaborating with the team to understand requirements and workflows
- Assisted in documenting requirements, tracking issues, and coordinating updates with the team during feature changes.

## Certifications

[Data Science with AI](#) | [Machine Learning](#) | [Python](#) | [SQL](#) | [Power BI](#) | [Tableau](#) | [Advanced Excel](#) | [Python Analysis \(NumPy\)](#) | [Applied Analysis \(Pandas\)](#) | [Internship](#)
